Present: Roster Attached

Linda went through a brief recap of Scott's presentation from the last meeting, held on January 22, 2007 for those that were not present.

Robert Parris, Bill Owens, and George Glenn did not receive e-mail notification from Linda for the meeting today.

Linda asked everyone to pull Worksheet I from their books so the team could identify the types of disasters to mitigate for. Those decided on were:

Failure of Dams

Flood and Hail

Drought

Tornados

High Winds Hurricanes

Wild Fires (from lightning, not man originated)

Severe Winter Storms

After discussion, it was decided that to do an article in the local paper asking older citizens to come forward and report disasters they remember that are not on the reported list for Burke County. Jayne Brinson, PIO, for BEMA asked Dianna Royal to get with her on the best way to present this in the paper.

Committee Assignments:

Tornados	Rob Peel and John Finley
Failure of Dams	Merv Waldrop and Linda Grijalva
Droughts	Jeannie, John Finley and Norman Elliott, Jr.
Wildfires	George Glenn and Linda Grijalva
Floods	{Bill Owens, Leroy Daniels, Jerry Coalson,} {Norman Elliott, Jr., Jesse Burke}
High Winds & Hurricanes	Merv Waldrop and John Finley
Severe Winter Storms	Robert Parrish and Julie Herrmann
Hail Storms	Dianna Royal

Linda passed out facility sheets and discussed how to fill them out and what facilities need to be identified such as essential facilities for public safety and health, schools, historical buildings, utility sub-stations, day care center, personal care homes, nursing homes, water treatment plants, apartment complexes, and large industry. The next meeting was scheduled for May 14, 2007, Burke County Library Conference Room at 10:00 a.m.

This grant has been awarded in response to the Disaster Mitigation Act of 2000 (DMA2K) that was signed into law on October 30, 2000.
